

# CEMA ECONOMIC FORUM

*Impact and Adaptation of EU agriculture in times of Covid*

- 19

**Tassos Haniotis**

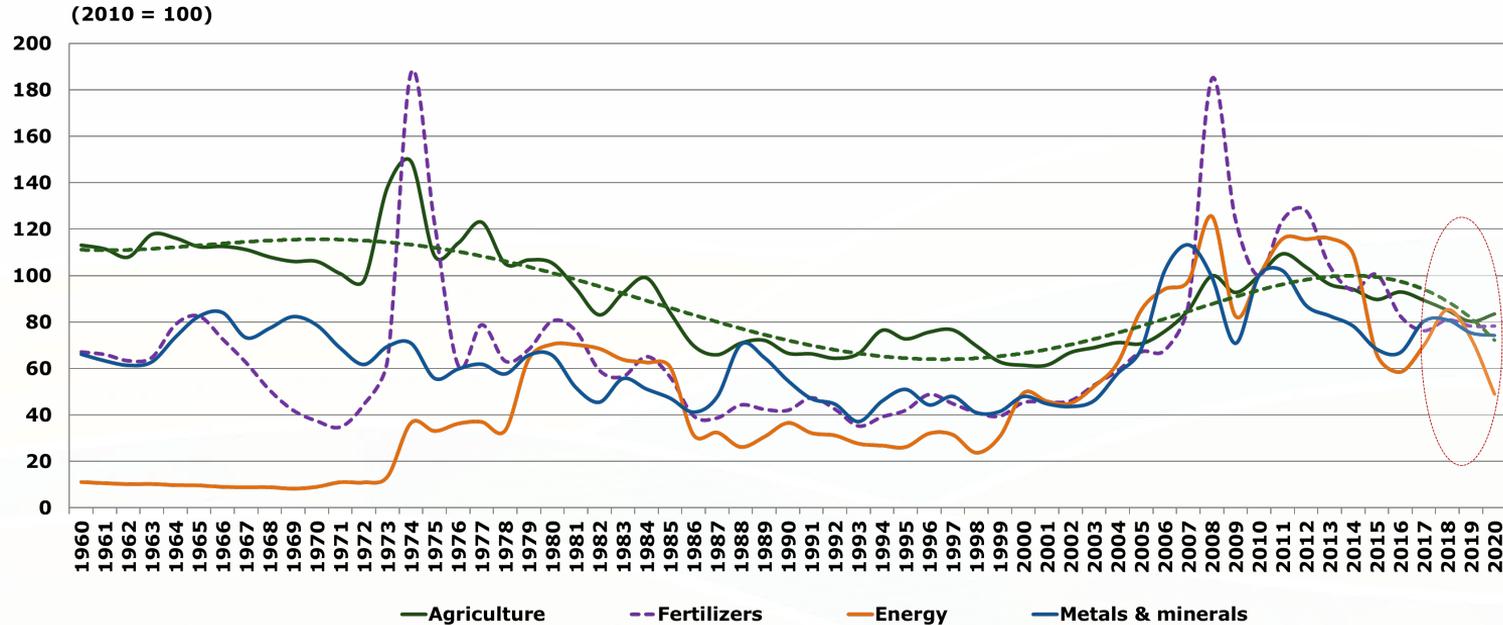

DG AGRI European Commission

#CEMASummit 2021

# The big picture

*Commodity price waves (World Bank real price indices)*

# The COVID lessons (so far...)

Resilience of food supply systems

Acceleration of the digital and green transition

Widening of knowledge gaps and asymmetries in transition

# The market relevance

The supply side and the production cost dilemma

The demand side and its (often conflicting) pulls

The role of trade and the exchange of goods and practices

# The policy relevance

Challenges in the transition to more sustainability

Technological breakthroughs and uncertainties

The role of (and perceptions about) science
